Chapter 1: Introduction and Background

Background

The statutory guidance on the Well-being of Future Generations (Wales) Act 2015 (WFG Act) 'Shared Purpose – Shared Future' sets out a requirement for each Public Services Board to prepare and publish the Local Well-being Assessment for the local area no later than a year before it publishes its Local Well-being Plan. The guidance also states that the Local Well-being Plan must be published no later than 12 months following each local government ordinary election.

There are two main elements to the Local Well-being Plan:

- 1) The local objectives; and
- 2) The steps the board proposes to take to meet the objectives.

Once the Local Well-being Plan has been published it will be the main work-plan and focus of the Newport PSB going forward.

Local Well-being Assessment

The [Local Well-being Assessment](#) was published on 2nd May 2017. In Newport these have been named [Community Well-being Profiles](#). The Local Well-being Assessment comprises of one overarching Profile for Newport and 20 community level profiles at a ward level.

A sub group was convened by the PSB to develop the Local Well-being Assessment. This sub-group is now working on the development of the Local Well-being Plan.

Chapter 2: Choosing Emerging Priorities

To enable the PSB to develop a local well-being plan the Board must determine the priorities that exist for the city, which are supported by evidence gathered during its local well-being assessment. These issues were grouped based on the economic, social, cultural and environmental well-being of Newport.

Identifying the emerging priorities

To facilitate the PSB in identifying the main emerging priorities for the Local Well-being Plan three prioritisation workshops were held during the 23rd – 25th May 2017, which were as follows:

- Economic Well-being Prioritisation Workshop
- Social Well-being Prioritisation Workshop
- Cultural and Environmental Well-being Prioritisation Workshop

All PSB members were invited to attend all three workshops, while other partners and professionals specific to that area were also invited. All sectors were well represented in the discussions and across the three workshops there were approximately 65 stakeholders who attended across 19 different organisations. Attendees were asked to prioritise the issues identified from the Local Well-being Assessment, considering how they could maximise the PSB's contribution to the Five Ways of Working and the Well-being Goals.

A matrix and the “guide to maximising your contribution graph” (from the statutory guidance) were used to undertake this task, which are shown in diagrams 1 and 2.

The information collected and recorded at these workshops can be found in Appendix 1, which was used to identify the main emerging priorities.

Diagram 2: Prioritisation Matrix

EMERGING ISSUES IDENTIFIED FROM THE LOCAL WELL-BEING ASSESSMENT	Aspect 1: DATA EVIDENCE		Aspect 2: LEVEL OF WORKING	Aspect 3: FIVE WAYS OF WORKING					Comments /Notes
	A: NEWPORT DATA	B: INEQUALITIES		A: INVOLVEMENT	B: COLLABORATION	C: PREVENTION	D: LONG TERM	E: INTEGRATION	
	Is there data and analysis at a Newport level to evidence that this is an issue for Newport?	Community (ward or LSOA) level	Can this issue be tackled locally? (Newport) (consider Gwent level working, City Deal etc.)	Was this highlighted as an issue for the public in the engagement process?	Is this an issue that can be worked on together by more than one organisation?	Does dealing with this issue prevent the root cause of the problem in meeting public bodies well-being objectives and the well-being goals?	Would tackling this issue balance short term needs with the requirement to safeguard the ability to also meet long term needs?	Does addressing this issue support at least one of the Well-being Goals without adversely affecting any of the others?	

What are our local emerging priorities?

The main emerging priorities identified from the workshops and agreed by the PSB on 20th June were:

Theme	Emerging Priorities
Economic Well-being	<ol style="list-style-type: none"> 1. Improve the perceptions of Newport as a place to live, work, visit and invest. 2. Drive up skill levels for economic and social well-being. 3. Support regeneration and economic growth.
Social Well-being	<ol style="list-style-type: none"> 4. Provide children and young people with the best possible start in life. 5. Long and healthy lives for all (equalise up health life expectancy and life expectancy and health inequalities). 6. Ensuring people feel safe in their communities, by reducing crime and antisocial behaviour and fear of crime. 7. People have access to stable homes in a sustainable supportive community.
Cultural Well-being	<ol style="list-style-type: none"> 8. People feel part of their community and have a sense of belonging. 9. Participation in sports and physical activity is important for people's physical and mental well-being and resilience. 10. Participation in arts, heritage and history is important for people's well-being.
Environmental Well-being	<ol style="list-style-type: none"> 11. Newport has a clean and safe environment for people to use and enjoy. 12. Improve Air Quality across the city. 13. Communities are resilient to climate change.

Chapter 3: Next Steps

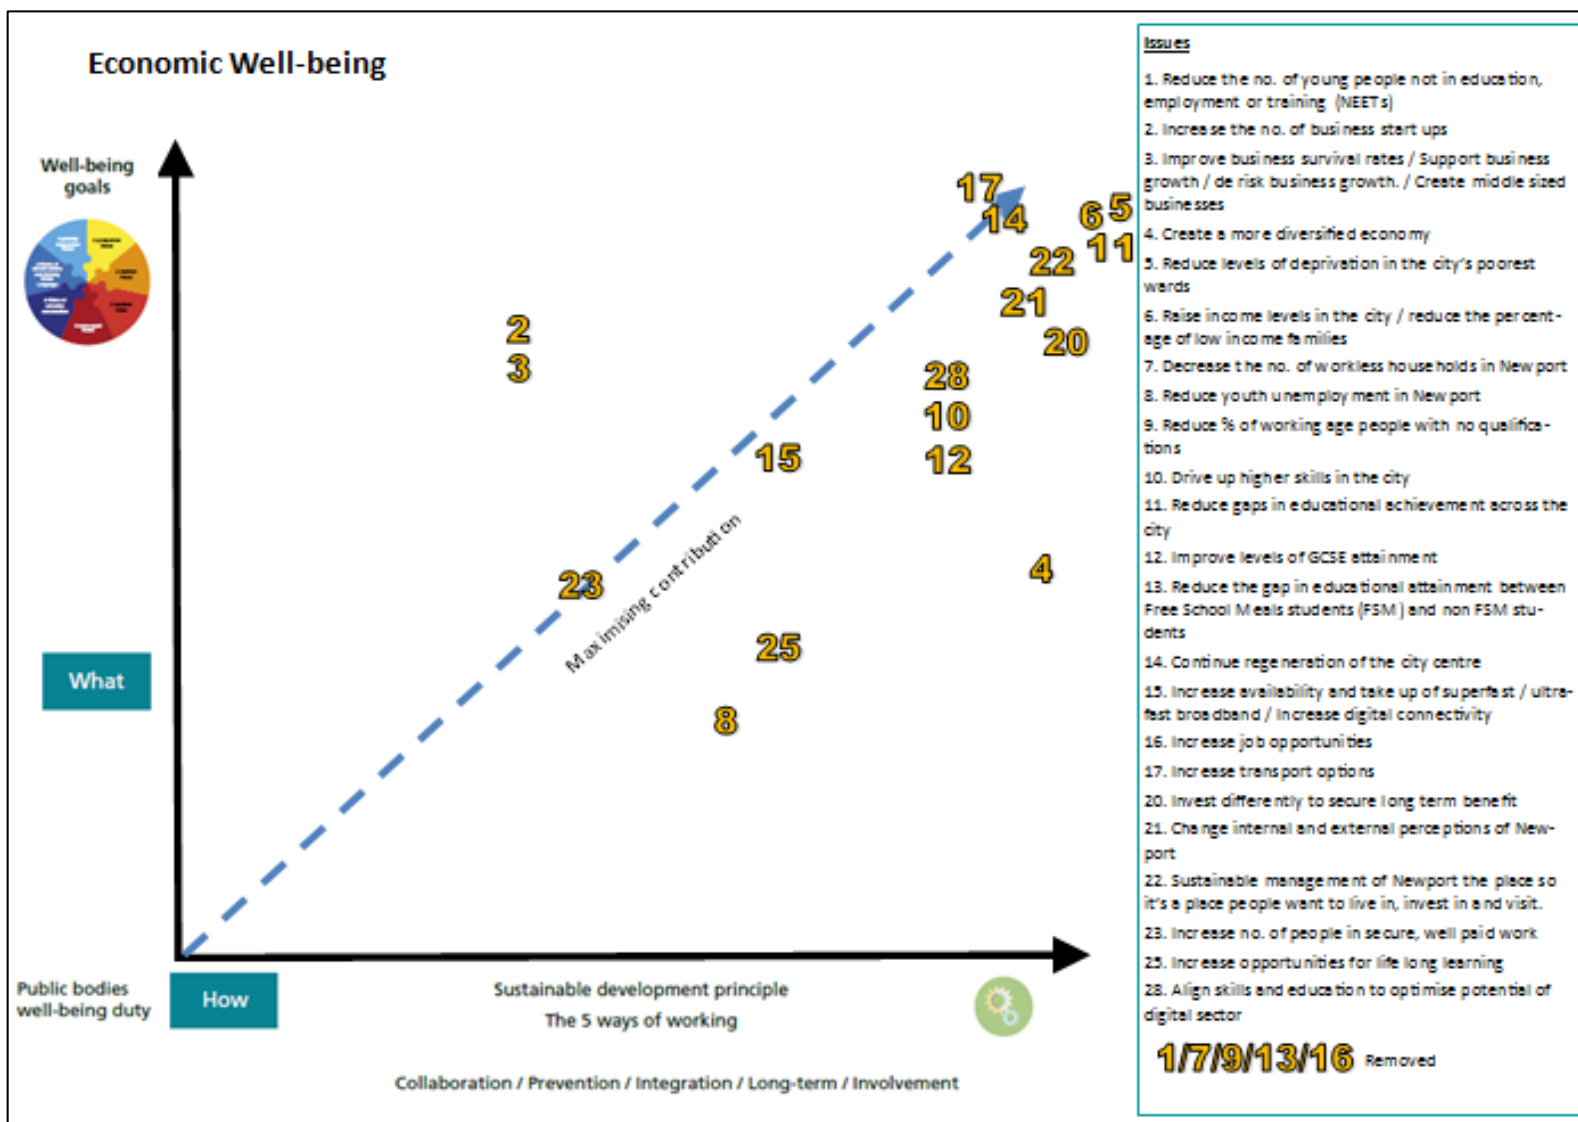

The next steps will involve the development of a response analysis, which is the link between the Local Well-being Assessment and the Local Well-being Plan. The response analysis will inform the selection of local objectives and assess how local services (in a collective sense) are, and could be, addressing them.
